

REMARKS:

This preliminary amendment is being filed in conjunction with the entry of the subject patent application into the national stage under 35 USC §371. This amendment is being made to remove the presence of multiple dependent claims from the subject patent application and to add the required phrase "I claim".

The only substantive change is removal of the haze limitation for a light transmitting wall. Support for the light transmitting wall can be found at page 15, last two lines.

The amendment places the application having 2 independent claim, 18 dependent claims, for a total of 20 claims.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Edwin A. Sisson".

Attorney for Applicant(s)
